Roof Cleaning Advisory Sheet Summer 2026

OVERVIEW

At JB Roofing & Cleaning, we provide professional roof cleaning services designed to protect your property, extend the life of your roof, and improve its appearance. This advisory sheet outlines what to expect before, during, and after your service.

WHY ROOF CLEANING MATTERS

- ✓ Prevents damage caused by moss, algae, and lichen
- ✓ Extends the lifespan of roofing materials
- ✓ Improves water drainage and prevents blockages
- ✓ Enhances the overall look of your home

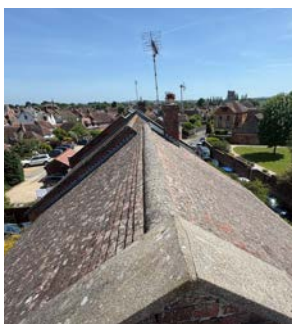

OUR CLEANING PROCESS

We use safe, effective methods tailored to your roof:

- ✓ Manual Moss Removal - Careful scraping and brushing
- ✓ Biocide Treatment - Helps prevent regrowth over time
- ✓ We avoid high-pressure washing

IMPORTANT CUSTOMER INFORMATION

- ✓ Work is weather dependent and may be rescheduled if conditions are unsafe
 - ✓ Some moss and debris may fall during cleaning
 - ✓ All affected areas will be tidied upon completion
- Safe access around your property is required

PROTECTING YOUR PROPERTY

We take care to protect:

- ✓ Gutters and downpipes
- ✓ Walls, patios, and driveways
- ✓ Plants and garden areas

Please let us know in advance of any delicate surfaces or concerns.

AFTERCARE & RESULTS

- ✓ Your roof may continue to improve in appearance over several weeks
- ✓ Treatments remain active and help reduce regrowth
- ✓ Some staining may take time to fully disappear

MAINTENANCE ADVICE

- ✓ Recommended cleaning interval: every 2-5 years
- ✓ Regular gutter maintenance is advised
- ✓ Trim overhanging trees to reduce moss growth

SAFETY ADVICE

- ✓ Do not walk on the roof after cleaning
- ✓ Surfaces may be slippery immediately after treatment
- ✓ Avoid attempting DIY roof cleaning without proper safety equipment
